PROJECT DETAILS

Project 1:

Title : Admin Panel.

Environment : Asp.net, c#, Sqlserver2008 (R2), JQuery, Ajax, Bootstrap.

Description:

This project maintains the user details assign roles, user activation, user deactivation, terminate roles, assign branch, terminate branch, change the password, forgot the password, send SMS, email. Security for the system is maintained so that the administrator has the power of all the above-mentioned activities but not the common user who has restricted authority to perform some tasks only.

Responsibilities:

- Analysis, design, development, and implementation of the entire web application package in asp.net, c# and user interface in bootstrap and User, Role report created using crystal report.

Project 2:

Title : Educational Organization Employee Administration

Environment : Asp.Net, C#, Sqlserver2008 (R2), Ajax, JQuery, Bootstrap.

Description:

This Project Maintaining information of each employee and leave, transfer, promotion, cancel a transfer, cancel the promotion, status, roster of an employee. Reports of employee retirement letter, employee details, seniority list, transfer, promotion list, leave etc.

Responsibilities:

- Involved in analysis, design and development, Re-engineering and enhancement of the existing application, Coding and unit tested the system to check the correctness as per the requirements.

Project 3:

Title : Organization Accounting System

Environment : Asp.Net MVC, C#, Sql Server 2008 (R2), JQuery, Bootstrap.

Description:

This is a custom software development project for the educational organization. My major role was designing User Interfaces and Crystal Report as per the functionalities. In this project contains Receipt, Payment, Bank, Deadstock Master and report for Cashbook, Ledger, and Trial-Balance, Receipt, and payments.

Responsibilities:

Database Implementation and testing an entire system issue resolution. The accounting system is to make their process automated and smoother with migration from the FoxPro system to a 3-tier web-based application. Designing and create report receipts and receipts and payments using crystal reports.

Project 4:

Title : Online Job Application

Environment : Angular, Asp.Net Web API, SQL Server 2019.

Description:

The main objective of an online job app system is to manage the details of the applicant, interview, and applicant registration call letter. An applicant can browse through the vacancy details and apply. It manages all the information about the applicant. The purpose of the project is to build an application program to reduce manual work for applicant details and interview notification process.

Responsibilities:

Analysis, design, development, and implementation of the entire web application package in angular, asp.net web API and user interface in bootstrap, call letter, Subject wise, caste wise. etc report created using crystal report.

EDUCATION

Degree	University/Board	Percentage	Year of Passing
M.C.A	Pune	71.68%	2013
B.C.A	Pune	67.25%	2010
H.S.C	Maharashtra	51.67%	2006
S.S.C	Maharashtra	64.53%	2004

SOFTWARE PROFICIENCY

Languages Known:	C#.net
Web Technologies:	ASP.NET, ASP.NET MVC, Web API, Asp.NET Core Web API, HTML, CSS, Bootstrap,
Scripting Languages:	JQuery, Type Script, Angular.
Databases:	MS-SQL Server
Reporting:	Crystal Report
Web-Server:	IIS.
Tools:	MS Dot Net Framework 4.0, 4.5, 4.7.
Windows-Server:	Windows Server 2012.
Configuration Management:	Tortoise SVN
