PROFESSIONAL SUMMARY

- I have over 3.8+ years of experience in developing software solutions for Businesses and Enterprises using Microsoft Technologies.
- 2.5 year of experience in .Net technologies with Asp.net and asp.net MVC
- Implemented Database Connectivity using ADO.Net.
- Deployment wizards like IIS,node server,
- Working exposure on Visual Studio 2017,Visual Studio Code
- Good Knowledge on Object Oriented Programming
- Extensively worked on Database objects **like Data Adaptor, Data Set,** and Data Reader to access and update the data from database.

- Hands on Sql server Database design, Database Maintenance, developing Queries, **Stored procedures** using sqlserver2014.
- Good knowledge in database concepts at **SQL Server 2015** versions.
- Have worked extensively on **Asp.net MVC** architecture.
  Ability to learn new concepts and Good communication, inter-personal skills, ready to work in any environment.

PROFESSIONAL QUALIFICATION

- Bachelor of Technology (B. Tech) from Rajiv Gandhi University of Knowledge Technologies-Basar

TECHNICAL SKILLS

Programming language	:Angular ,C#.net
Technologies	: ASP.net, Asp.net Mvc ,kendo ui,,JQuery, ADO.net
IDE/Tools	:Visual Studio code,MSVisual Studio-2017,PostMan,GIT Lab
Operating System	:Windows
Scripting languages	:HTML,Javascript,CSS
Design Patterns	:MVC
ServerSide Frameworks	:Asp.net
MVC SDLC	: Agile
Application Server	: Internet Information Server ,GIT LAB

PROFESSIONAL EXPERIENCE:

- Kpmd Software solutions pvt ltd(march 2020 – Current)
- Coign Consultancy pvt ltd(October 2016 – march 2020)

PROJECTS

1. EMR

Role   :   Software Developer
Period   :   Sep- Current
Environment :   Angular and angular material
.
Description:
EMR application provides the systematized collection of patient and population electronically stored health information in a digital format These records can be shared across different health care settings. Creating appointments.Maintaing current patients, discharged patients..

Roles and Responsibilities:

- Designing, building, and maintaining reliable and efficient code
- Determining requirements and worked on Scheduler Module, visit Module ,ER-Dashboard and History Module
- Locating and devising solutions for bugs and maintaining code quality
- Fixing software issues and documenting software development cycle phases

2. HRMS
Role   : Software Developer
Period   :   March 2020 – September 2020
Environment : Asp.Net MVC with C#, kendo UI ,Visual Studio 2017, Sql Server Management Studio 2015

Description:
HRMS is health care system will provide all the health care services ,generating employeeement,A general ledger (GL) is a set of numbered accounts a business uses to keep track of its financial transactions and to prepare financial reports account payment and HL 7 generation

Roles and Responsibilities:
- Developing the code in kendo ui and asp.net mvc
- Involved in generating pdf and excel documents using RDLC
- Responsible for establishing the connection with data sources.
- Development, Support and Maintenance of Project

3.KDE

Role   :   Software Developer
Period   :   Oct 16- 2018
Environment   :   C# asp.net and sql server 2014
.
Description:
This project contains both online classes and content related to the concept provided in the web site as well writing API's for testing the writing skills of the students. It is the combo of first two projects with new features for the students to give better performance.

Roles and Responsibilities:

- Involved in creating Database tables, Implementing Stored Procedures
- Responsible for establishing the connection with data sources.
- Developing the code in Asp.net 3-tier Architectur
- Development, Support and Maintenance of database as well as web application.
- Extensively used Grid Views and Repeaters with Sorting and Paging.

3.VMM

Role   :   Software Developer
Period   :   Oct 18- march 2020
Environment   :   Asp.net, C#.net, Ado.net, SQL Server, 2015 servers.
.
Description:
Combating gender based violence .

Roles and Responsibilities:

- Involved in creating Database tables, Implementing Stored Procedures
- Responsible for establishing the connection with data sources.
- Developing the code in Asp.net 3-tier Architectur
- Development, Support and Maintenance of database as well as web application.

- Extensively used Grid Views and Repeaters with Sorting and Paging.
