Summary:

- 5.6 **years of experience as a .Net developer** in **Analysis, Design, Development, Management and Implementation** and provide **Production and Technical Support** of **Client-Server**, **Windows** and **Web Based** applications.
- Having vast strong experience on software and tools like **C#, .Net Framework 4.0, MS Visual Studio 2015 and 2017, ASP.NET, C#.net, ADO.NET, SQL Server 2012, SSRS report, WCF** and have gained strong experience in Microsoft Web Technologies as well as Windows technologies.
- Strong experience with design, development, and coding of business/commercial applications.
- Experience in almost all the phases of **Software Development Life Cycle (SDLC)** -requirements definition, design, documentation, development, integration, testing and troubleshooting, implementation and maintenance.
- Good Communication skills, Interpersonal skills, Flexible, Fast learner and ability to work effectively independently and perform as part of a team. Excellent abilities to understand functional requirement to convert in to technological product using requisite tools.

Technical Skills
- **Programming languages**: C#, ASP.net
- **Frameworks**: Microsoft .NET 4.0
- **Web technologies**: ASP.Net in C#, jQuery, AJAX, JavaScript, HTML, WCF, XML
- **Web service**: REST service with JSON request-response
- **Database:** SQL Server 2008/2012, MySQL, Postgres
- **Tools**: Microsoft Visual Studio 2010 & 2012 & 2015 & 2017
- **Web/App Servers:** IIS 8.0/7.0/6.0
- **Operating System:** Windows 2008/2010

PROJECTS DETAILS

Company Name: adStringO Software Pvt. Ltd.

Role: Senior Software Developer (Nov, 2017 – Present.**)**

Project Name: Token Based Authentication in Web API

Responsibility: Coding, Development and Maintaining.

Platform: **.Net Framework 4.0, MS Visual Studio 2015, SQL Server 2012, WCF service**

Description: In Token-based authentication is a process, client application first sends a request to Authentication server with a valid credentials. The client application then uses the token to access the restricted resources in the next requests until the token is valid. If the Access token is expired, then the client application can request for a new access token by using Refresh token.

Role: Development of web service & database creation.

Project Name: Rest Web Service for Different client (HDFC Life, BSLI, ICICI PRU etc...)

Responsibility: Coding, Development and Maintaining.

Platform: .Net Framework 4.0, MS Visual Studio 2015, SQL Server 2012, WCF service

Description: In this WCF web API use images & pdf document compression logic after insert document in database with related document information metadata and changed request & response based on client.

Role: Development & Integration in existing Application

Project Name: All Browser Compression Component for All Client

Responsibility: Coding, Development and Maintaining.

Platform & & Technology: .Net Framework 4.0, MS Visual Studio 2015, SQL Server 2012, windows service & scheduler

Description: In this component use compression logic with data insertion and upload-download document or store in specific location in local system using java script. Use windows service also for install component in system services.

Role Development & Integration in existing Application

Project Name: Sales Track Update (web Application)
Responsibility: Coding, Development and Maintaining.

Platform: .Net Framework 4.0, Web Application, SQL SERVER 2012.

Description: In this web site create sales track update, sales review meeting, and sales expense entry page, first & second approval then after payment transition transfer in sales executive account. In this entry and approval process time mail request sent to approval manager and account maintain officer with proper expense details. In this application one more module for sales meeting follow-up alert and update based on last meeting output.

Company Name: ECFY Consulting Pvt. Ltd.

Role: Software Developer (Oct 2015 – Oct 2017)

 Project Name: Pending Orders in Queue Report

 Responsibilities: Design GUI, Database Structure, Coding (Rest Service, jQuery), Testing
 Platform: .Net Framework 4.0, Web Application, SQL SERVER 2008.

 Description: This Report displays all the pending orders assigned to a biker with the status as scanned/not scanned, CAF No, Location from where it needs to be scanned etc.

Project Name: **C Note Vehicle Assignment Module**
Responsibilities: Designed GUI using ASP.net,Coding (jQuery Ajax, Web methods,C#)
Platform: .Net Framework 4.0, Web Application, SQL SERVER 2008.

Description: This module developed for the assignment of vehicles to the dockets as per the requirement.
Form was developed based on the criteria of BusinessType, ServiceType & Product type.

Project Name: **C Note Generation Module**
Responsibilities: Designed GUI (using asp.net), Coding (jQuery Ajax, Web methods,C#)
Platform: .Net Framework 4.0, Web Application, SQL SERVER 2008.

Description: This module developed involves the Consignment Entry(docket) form wherein the user fills all
the necessary information of the Consignment such as Consigner,Consignee,Businesstype,Billing
party, Docket freight charges calculated,FTL/LTL Business etc. Form was developed based on the
criteria of BusinessType,ServiceType & Product type which will fetch desired screens for
generation.

Academic Details :

- **S.S.C from State board (2008).**
- **H.S.C from State board (2010).**
- **B.Sc. [CS] from Mumbai University (2013).**
- **MSC [I.T] from Mumbai University (2015).**

Personal Details:

- **Date of birth:** July 10,1992
- **Gender:** Female
- **Nationality:** Indian
- **Marital Status:** Married
  Permanent Address: 15/606 Riddhi-Siddhi River wood park, Kalyan shil rd., Khidkali ,Thane 421204

Declaration:

I hereby declare that the above-mentioned information is correct to the best of my knowledge and belief.

Date: **Yours Faithfully**
